5 QUESTION IMPACT

"The expert at anything was once a beginner." - Helen Hayes

Through sharing your story, you can inspire young people in STEM subjects and careers to build our future talent pipeline.

What is the 5 Question Impact?

In an environment where real world experiences are limited, it's even more important that we stay connected with students and continue to expose them to careers, industries, and local businesses within McLean County.

BNSTEM is participating in a project entitled, "The 5 Question Impact". Through 5 Question Impact, industry experts will be asked to answer 5 specific questions in a 5-10 minute virtual interview conducted and recorded via WebEx. The videos will then be added to a repository housed on BNSTEM.org and promoted via social media for schools and the community to use as a resource.

Together, we can make a difference!

Questions include:

1. **What was your path?**
2. **Tell us about your job description and responsibilities.**
3. **What do you love about your career?**
4. **What are some challenges you face?**
5. **What advice would you have for a student interested in pursuing this career?**
